REACH – ROHS Statement

(Ref: REACH Declaration 1907/2006, SVHC Candidate List & RoHS according to the Directive 2011/65 / EU)

REACH (Registration, Evaluation and Authorization of Chemicals) it is the most advanced European reference standard for safety in the production of chemical substances in the world whereas the **RoHS** (Restriction of Hazardous Substances) Directive sets restrictions on the use of certain hazardous substances in the construction of various types of electrical and electronic equipment (EEE), in order to contribute to the protection of human health and the environment, including recovery and the environmentally sound disposal of EEE waste.

Forge Fedriga Srl is an open-die forging of special steel, carbon steel, alloy steel, stainless steel, duplex & superduplex, superalloys, titanium and can be seen as a manufacturer of products in terms of REACH "downstream user".

Forge Fedriga Srl steel products can be classified, within REACH, as “articles without intentional release of substances” therefore the products you purchase from us are not subjected to registration as products within the meaning of REACH. In accordance with Art. 33 of the REACH Regulation, we are nevertheless obliged to inform our customers if a product supplied by us contains a substance of very high concern (SVHC) in a mass concentration of > 0.1% (<http://www.echa.europa.eu/web/guest/candidate-list-table>).

Moreover no hazardous substances within the meaning of Directive 2011/65 / EU (RoHS) are included in our products.
